

SITE Virginia Living Museum Newport News, Virginia

PROJECT Aviary viewing platform

The aviaries of the Virginia Living Museum include 3,100 square feet of natural wetlands incorporating a forest and lake. A raised boardwalk and aviary viewing platform with educational markers provide visitors with information about animals that live in the wetlands.

To learn more about the Virginia Living Museum, access www.valivingmuseum.org.

GRANT \$25,000 plus \$25,000 in local matching funds.

NOTEWORTHY When completed, the indoor songbird aviary and outdoor wetlands aviary will house one of America's largest collections of native birds including 30 species.
